What Happy Students says about us?

I had taken coaching (for both PGDBA written test and interview prep) from www.onlypgdbaprep.in. This proved to be very beneficial to me as I got an idea of the question pattern beforehand and I could focus on my weak areas prior to the exam. As for the interview preparation, I could interact with PGDBA alumni as well as current 1st year and 2nd year PGDBA students through this course, who shared their interview experiences and some things to stress on/avoid during the interview. The mentors who took my mock interviews were also PGDBA alumni. We were assigned smaller groups wherein we had group discussions on current affairs and HR questions and the panel mock interviews were held in the weekends. I faced around 6–7 rounds of interviews and this gave me confidence for the main interview. In the end, I was able to confidently crack both the written and the interview round.

–Vivekanand Chaudhary, PGDBA 2022 Selected

I joined onlypgdbaprep after the written exam for the interview preparation, and it was the best decision I would count on, to count a few, I got personalised mock interviews suiting my profile, the HR sessions helped me alot to prepare my HR answers and finally the evaluation method was unique which helped me recognise the areas to work on.

-Rohan Jaiswal,PGDBA 2022 Selected

PGDBA 2023

I had bought 7 days course of onlypgdbaprep which helped me revise all my concepts in a very short time and secure a good written score. After being shortlisted, I enrolled in onlypgdbaprep interview program. I feel it was the right decision and I couldn't have made it without the mocks and guidance provided by the then current batch students and alumni associated with the program. This is a unique guidance program which is very well aligned with the exam pattern.

-Himanshu Singh ,PGDBA 2023 Selected

After passing my written exam, the next hurdle was the challenging interview, with a 1:5 success rate in the previous year. My profile's composite score wasn't impressive, so excelling in the interview was my only way forward. Fortunately, I joined onlypgdbaprep, where their team's efforts were exceptional. They left no stone unturned in aiding students, offering multiple mock interviews, group sessions with pgdba alumni and current students, as well as unique HR interviews and evaluations. In the final two stages, Shailesh assigned a pgdba student to assist me in the interview process, providing a wonderful experience.

-Rahul Singh ,PGDBA 2023 Selected

I had enrolled into the interview preparation Complete Care Course of onlypgdbaprep. This course turned out to be really helpful, with its rigorous and comprehensive blend of multiple mock interviews (Including separate Maths, Analytics & HR mocks), preparation guidance sessions and peer to peer learning. The Mock PIs were given by PGDBA alumni.

- Abhishek Anand, PGDBA 2023 Selected

I joined onlypgdbaprep's mock test series and the revision course while preparing for the written exam. The Revision Course provided me with extensive materials, including a formula book that proved indispensable for staying up-to-date on essential formulas. The Mock Test Series helped me pinpoint areas in need of improvement, with their solution guides offering clear and helpful explanations. After clearing the written exam, I made the decision to enroll in their Interview Preparation Course, which I can confidently say was the best choice I made. The personalized HR sessions within this course were instrumental in refining my responses to HR questions. Additionally, they conducted specialized interviews tailored to my profile, including Mathematics and Statistical interviews, and provided insightful sessions conducted by PGDBA alumni. The meticulous evaluation methods used during the mock interviews helped me identify the specific areas that required further attention and refinement.

- Aniket Sinha, PGDBA 2023 Selected

PGDBA 2023

I joined onlypgdbaprep after the written exam for interview preparation, and it undeniably played a pivotal role in my selection. They adeptly segmented the entire process into three parts: mathematics, HR, and technical aspects. Through meticulous evaluation, they identified my strengths and weaknesses in these areas, subsequently guiding me to improvement. They did so by providing access to experts in each respective field and arranging interviews with alumni who had undergone the same course. Moreover, they were consistently available via phone, ready to offer support and guidance whenever needed. My experience with onlypgdbaprep not only enhanced my interview skills but also greatly contributed to my overall preparedness, resulting in my successful selection.

– Nitish Kumar, PGDBA 2023 Selected

Absolutely thrilled to share my experience with onlyPGDBAprep! I've always had a passion for mathematics, so naturally, I was drawn to the PGDBA course. While the exam itself wasn't too daunting for me, the interview stage felt like uncharted territory. That's when I stumbled upon onlyPGDBAprep. The structure of their interview prep is thorough, yet flexible, catering to the unique needs of each student. What really sets them apart is the incredible community—team members, alumni, and current students all contribute to an enriching learning environment. Their guidance was invaluable; it felt like I had a personal roadmap to navigate the high-stakes interview. If you're serious about acing your PGDBA interview, look no further than onlyPGDBAprep. They don't just prepare you; they empower you. Highly recommended!

–Nisarg Tole, PGDBA 2023 Selected

PGDBA 2023

Taking onlypgdbaprep's interview preparation course turned out to be a career defining decision for me. They provide you with a detailed one-month (or so) road map which takes away the trouble of planning yourself and leaves you with even more time for studies. The best part is that you can directly talk to students and alums of PGDBA and get your doubts addressed. I was greatly benefited when one alumni pointed out some glaring gaps in my strategy at the very first week of preparation and I was able to build on that feedback. Lastly, one full mock interview before the actual interview helped me understand my positions and gave me enough confidence to crack PGDBA.

– Ankush Pandit, PGDBA 2023 Selected

PGDBA 2024

I had joined onlypgdbaprep for the written CBT and interview both. Written course helped me revise concepts and score well. Mock interviews made me realise that I lack knowledge and confidence in HR, statistics, Mathematics and almost every section. That thrashing in the very first mock interview was very much necessary. That made me realise that even after a very good score I may not have a qualifying composite score. With the guidance of team I prepared each section and with time got comfortable in each. That has certainly helped me for the interview day. In the end i was able to confidently appear in front of the panel and crack it.

-Prashant Bisht, PGDBA 2024 Selected(Roll no-PG2423246)

I had bought the 10 mock tests package and the special care interview course. The mock tests helped me get a good score in the written exam, as the level of those mock tests was way above the actual written test. The interview course was well structured, and everything was covered properly, including domain-specific questions. I went through almost 8 rounds of interviews, which were taken by PGDBA students and alumni. It helped me in clearing the actual interview easily. Overall, I can say that joining onlypgdbaprep.in was the best decision I took for the interview preparation.

PGDBA 2024

My journey for PGDBA with "onlypgdba" started by attempting the previous year's questions (PYQ) from the platform. I mainly utilized "onlypgdba" for interview preparation. Initially, I was enrolled in the "Complete Care" program, where all the required materials were provided. The team's repeated focus on important topics was one of their strengths. Additionally, the alumni connections and insights from previous batch students who shared their knowledge and experience in class were invaluable.

As I progressed, I continued with the "Complete Care" program, understanding that interviews are highly personal. The support received from Shailesh Sir and my mentor Ashish Urankar Sir was exceptional. Mamta Ma'am's functional support was also crucial; she would solve our queries irrespective of the time.

The brutal feedback from the interview panel played a significant role as well. When my profile was analyzed by many different panelists, I developed responses or at least a structure for almost all possible profile-related questions. This preparation was beneficial, as the real interview questions felt similar to those I had encountered during practice sessions, allowing me to provide more structured and coherent answers.

Encountering "onlypgdba" for preparation was instrumental in my selection. From the core of my heart, thank you, team!

PGDBA 2024

I joined OnlyPGDBA for the interview preparation of PGDBA'24. The coaching helped me prepare thoroughly and gain confidence for the interview. There were different preparation plans catering to different people according to the level of preparation they needed. It provided us with the flexibility to select the number and the type of interviews we wanted. I personally took separate interviews for statistics, HR round, Maths, and one complete interview. They held online classes for maths, stats and HR to help us prepare before appearing for the interview. Ravi kiran's stats class, Sandeep sir's maths class, and Ashish Urankar's Algebra class helped us delve deeper into the topics and grasp concepts. They also took some general awareness sessions and provided us with the notes and questions that are more readily asked in the PGDBA interview. All the people I came across during the preparation were nice and readily available to help with any problem we faced.

Overall preparing with the help of faculties and PGDBA alumni was an enriching experience.

-Urja Kumari, PGDBA 2024 Selected (Roll no- PG2423442)

I am immensely grateful to OnlyPGDBAprep. Their interview preparation materials and mock interviews were spot on. I was quite anxious because PGDBA interviews have a unique format, making adequate preparation challenging. However, OnlyPGDBAprep ensured comprehensive coverage of all relevant topics. Interestingly, a question they posed during a mock interview was asked verbatim in my actual interview.
